

DESKO GmbH

Company Outline

- **Contact:** Nigel Ball, Denny Koh
- **E-Mail:** nigel.ball@desko.com
- **Website:** www.desko.de
- **Founded:** 1991
- **Profile:** Desko is a German technology company specializing in automated data capture solutions for over 30 years. The product portfolio includes document readers, barcode scanners, and self-service solutions, all crafted with the "Made in Germany" seal of quality. Originating from magnetic stripe readers for the banking sector, DESKO has evolved into a family-run international enterprise, with a global presence and a network of resellers in over 100 countries. The company's products, utilized by over 250,000 devices daily, play a crucial role in enhancing operational efficiency at major airports and various industries worldwide.

Products/Services

- DESKO Scanner Portfolio
- DESKO PENTA Scanner 4X
- ID1-GO Scanner
- Authentication Software:
 - DESKO ID Analyze
 - DESKO ID Collect

Intended Cooperation

- A business partner would drive end-user and channel development across vertical markets, commit to new product rollouts, and collaborate with DESKO resources. Emphasis on customer identity, KYC, and fraud prevention solutions, along with strong software integration capabilities
