## Company Outline

- **Contact:** Emanuel Vostinar
- **E-Mail:** kontakt@echo-security.de
- **Website:** www.echo-security.de
- **Founded:** 2018
- **Profile:** Echo Security is a medium-sized, Europe-wide security company that works with its employees in event, property and personal security. EchoSecurity's portfolio also includes the education and training of personnel in the above-mentioned and other areas, such as Swat units, handling of explosives, medical training and much more. ECHO-Security is the partner for all types of security services, especially special security training

## Products/Services

- Education and training for private and state security forces
- Medic course and close combat training
- K9 training and education
- SWAT tactics
- Teaching tactics for defense against knife attacks
- Fire protection and occupational safety

## Intended Cooperation

- Collaboration involve the ongoing training of existing customer teams or units. We have the flexibility to provide training to individual multipliers, establish new teams, and offer personalized support by deploying teams of specialists.
