

# Seccua GmbH

## Company Outline

- **Contact:** Olaf Riedel
- **E-Mail:** [O.Riedel@Riedel-consult.com](mailto:O.Riedel@Riedel-consult.com)
- **Website:** [www.seccua.com](http://www.seccua.com)
- **Founded:** 2005
- **Profile:** Seccua has been developing, manufacturing and distributing ultrafiltration systems for safe and hygienic drinking water since 2005. The solutions are designed for private households, commercial buildings, public facilities, water suppliers, industrial water users and medical facilities. The innovative and standardized high-tech systems are installed at the point-of-entry of tap water in the home. They remove 99.99999% of all bacteria and parasites, and up to 99.99% of all viruses, through membrane filtration derived from the medical process of dialysis. Since October 2021, Seccua has been a 100% subsidiary of the MANN+HUMMEL Group, world market leader in filtration.

## Services

- Development, production, and distribution of state-of-the-art standardized equipment and systems for the significant reduction of pathogens, turbidity, dissolved substances such as pharmaceutical residues or pesticides as well as limescale deposits from drinking water.
- No use of chemicals
